

We have also received the following items:

- **Quinn note on Agent Orange case.** You asked about the Hercules v. U.S. case noted in Oct. 22-28 Cabinet Report. Jack has reviewed our position and is satisfied we are in the right. The Agent Orange manufacturers are trying to shift liability to the government and we are resisting that effort. Major veterans groups support us.
- **Quinn note on Lincoln City cab company's notice on black men.** *Washington Post* reported on Nov. 2 that Lincoln (Ill.) Yellow Cab Co. has posted notice advising that drivers should "not pick up any black males unless you feel it is safe." You asked if DOJ should look into this. Jack advises that they are and he'll let you know if and when they have anything to report.
- **Letter from Bob Crandall re Japan.** Via Erskine. Crandall urges you to discuss with Japanese officials the importance of providing U.S. carriers with greater opportunity to fly into Tokyo and Osaka. I have forwarded the letter to NSC for consideration in connection with the Vice President's upcoming trip.
